

Rotatable 3D plots

Plot your data in 3D and rotate in space for easier detection of patterns.

Rotatable 3D score plot colored by class.

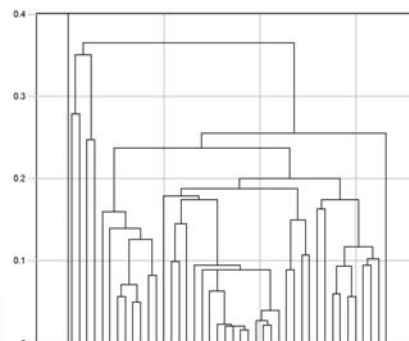

NIR-spectra.

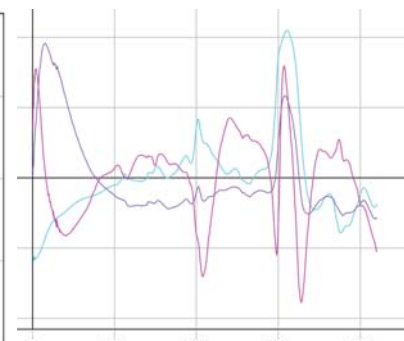

Presentation

Choose between a range of useful 2D and 3D plots. Customize plots with minimal effort for professional presentations and reports.

Dendrogram (T)

Dendrogram. Hierarchical clustering.

Spectral plot.

Molecules

Import and visualize molecule structures. Experience the full interaction between data tables, PCA score plots and rotatable 3D molecules.

Interaction between molecule structures in data table and PCA score plot
